Dear Parent/ Carer

Measuring the height and weight of children in Reception and Year 6

It is important to have a good understanding of how children are growing, so that the best possible advice and support can be provided for them and their families. Helping children to achieve a healthy weight is a priority for all of us.

Children in England in reception year and year 6 have their height and weight measured and your child's class will take part in this year's measurement programme.

The measurements will be supervised by trained school nursing staff at school in a private space away from other pupils. Children who take part will be measured fully clothed except for their coats and shoes. Routine data such as your child's name, date of birth, sex, address, postcode and ethnicity will also be collected.

The data from all schools in the area will be gathered together and held securely by our local authority public health and school nurse teams. Please note that we may store your child's information on their health record. No individual measurements will be given to school staff or other children, and all information will be treated confidentially.

The programme's data are used within the local authority and NHS to help plan the provision of services and advice to support healthy weight and lifestyles in our area. The information is also submitted for national analysis and publication in a way that means individual children cannot be identified.

After the measurement, you will be sent a letter addressed to you to inform you of your child's results. It is for you to decide if you share this result with your child. Where appropriate the letter will include some general advice on healthy eating and being active, and in some cases, a member of the school nursing team will contact you directly to offer advice and support following the result.

However you are welcome to contact the school nurse or your family GP for support at any point if you are concerned about your child's weight, you do not have to wait for the measurements to be completed or to receive a telephone call.

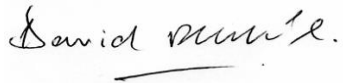

Taking part in the programme:

If you are happy for your child to be weighed and measured at some point during this school year then you do not need to do anything. If you do not want your child to take part, please complete the opt-out slip at the end of this letter and return it to the school so that your child will not be measured. Children will not be made to participate if they do not want to.

If you have any questions about this letter please contact the school nurse team on the number above. Thank you for your support in this important work.

Yours faithfully

Dr. David Phillips
