

All Saints App of the Week

**Solvemoji
(free)**

This week Mrs Legg has been playing Solvemoji... it's fantastic for problem solving! There are lots of puzzles to complete, from easy Junior levels, to super-challenging Mastery levels. You are prompted to sign in or register when you open the app, but just choose free-play at the bottom of the screen. There are hundreds of free levels to choose from and the only reason to register is to record high scores on the leader board. If you do decide to choose this option, make sure you keep your personal information safe by only using a nickname or made up username to register. Have fun playing!
