

All Saints

App of the Week

**Spelling Monster
Free**

This is a great little app for helping children to learn their spellings through some fun games, especially in KS1 and LKS2.

The children (or a helpful grown up) can create word lists within the app... perfect for adding their weekly spellings. Then they can learn their spellings in different ways through three fun games. Take a look at the next page for instructions on how to set up word lists.

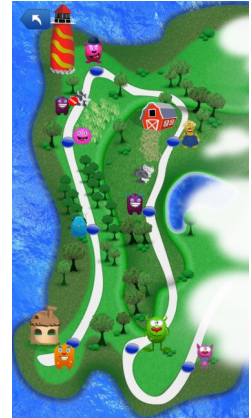

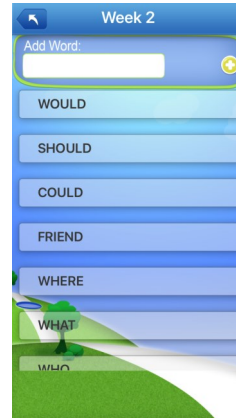

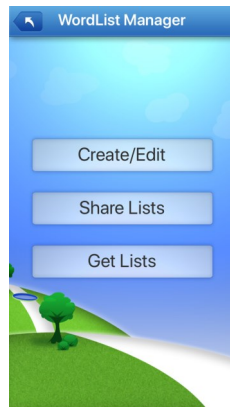

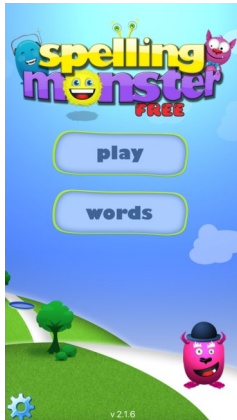

You can click on the app icons above to download the apps from Apple or Google Play. The full version of the app costs 99p and allows the children to access many more activities, as well as being able to record sound clips to go with their spellings.

Have fun learning - I'm expecting full marks on everyone's spelling tests next week!

Mrs Legg

These screenshots were taken on the Apple iPhone version of the app. The set up should be similar on most devices.

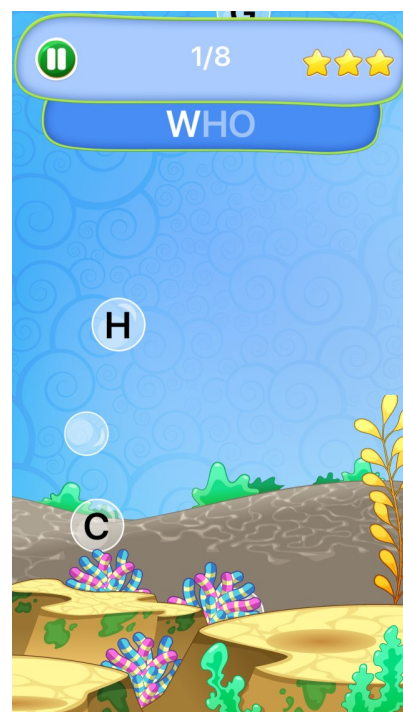

Select 'WORDS' and then 'CREATE/EDIT.'

Give your word list a name and add all of your spelling words.

Go back to the home screen and select 'PLAY.'

You can now choose from the first three games on the map.

If you would like to play any of the other word games, remember to ask a grown up first as the full version of the app costs 99p.
